If you sign up for one of our email newsletters, we will send you marketing communications. You may unsubscribe at any time by emailing us; clicking the unsubscribe link in each email; amending your subscription preferences by clicking on "Edit Subscriptions" or "Go to My Privacy Portal" in your Account Settings; or by contacting our Customer Service team. Our communications contain tracking technologies to analyze whether a predefined action took place by a recipient, such as opening our communications and other engagement metrics such as timestamps, delivery status, whether an email was forwarded, clicks within an email, as well as sender and recipient addresses to better adapt, personalize and distribute our communications. When you opt in to our marketing communications, you will be automatically opted in to the use of these technologies. You can also avoid downloading the pixel by rejecting the download of images in the email.

If you have provided a street address, we will automatically add you to our direct mailing lists. You can opt out of receiving direct mail by visiting "Edit Subscriptions" in your Account Settings and selecting "unsubscribe" under "Direct Mail Marketing."

Advertising partners. To be more efficient in our marketing we collaborate with different social media, search engine and advertising network providers ("Advertising Partners").

We collaborate with advertising partners such as Facebook, Instagram, Snapchat, Pinterest, TikTok and YouTube for advertising on social networks and with Google for online advertising networks such as Google Ads and Google Marketing Platform.

We also collaborate with affiliate (influencer) marketing partners, such as Rakuten, to drive traffic to our web sites.

We also collaborate with certain data brokers in order to identify potential customers that are similar to our existing customer base.

How this works: Advertising partners analyze data provided by us and collected from cookies and other tracking technologies (Internet or other electronic network activity information) that trace your usage of our websites and services by accessing data stored on your device or in apps to predict your preferences and interests and take this into account when creating your personalized ad (also known as "retargeting"). Retargeting allows us to run relevant advertising campaigns to you and to measure the efficiency and reach of the advertising materials. It also helps us to measure the advertising partners' performance and efficiency of campaigns.

For more information on the use of cookies and other tracking technologies on our website, see our Cookie Notice. Our Advertising Partners enable us to identify and engage with the right target audience, to create and distribute personalized marketing content across platforms and services. To be able to choose the content that fits your interests, we use information obtained from you as a member, account holder, newsletter subscriber or if you have made a purchase with us based on your interactions with us (as explained below). We may share this information and a customer identifier (e.g., an encrypted email address or device ID), with our Advertising partners. We and our third-party partners make inferences about your purchase tendencies. We use this to inform our marketing campaigns generally (e.g. market more to a certain age bracket or geographic location) and to personalize our marketing and communications to you as well as to show you relevant ads on third party websites and apps.

In order to do this, your data is matched with the database of the Advertising partner. If a match is found, you will receive relevant promotional content in your feed or search engine. If no match is found your data is securely destroyed. Your personal data is handled in a secure manner using a technique called hashing. This ensures your data is scrambled in a manner that makes it unreadable to anyone other than the recipient for the explicit given purpose.

Data Brokers: We also partner with data brokers to find individuals who are similar to our customers, who may be potential customers, and to send them marketing materials. To this end, we share with them your personal identifiers as well as engagement (shopping) data (commercial history). In order to do this, your data is matched with the database of the data broker. If a match is found, you will receive direct marketing. If no match is found your data is securely destroyed. Your personal data is hashed. This ensures your data is scrambled in a manner that makes it unreadable to anyone other than the recipient for the explicit given purpose.

Sharing: Each Advertising Partner is responsible for their part of the processing as controllers, including (if any) transfers of personal data to non-EEA countries. This sharing may be a sale under US data privacy laws. To opt out of this processing, please email us at the relevant address listed under the "[How do you exercise your rights?](#)" section below.

Responsible entity (Controller): H & M Hennes & Mauritz GBC AB

Justification: When we send you direct marketing material, we rely on your **consent** to receive personalised newsletters and text messages. We use pixels in newsletter emails to gauge recipients' engagement metrics, to which we rely on your **consent** given to receive direct marketing. For more information on how to opt out of direct marketing, please refer to the [What are your privacy rights?](#) section.

We will also ask for your **consent** via cookie banner regarding marketing that is based on cookie or similar tracking technologies accessed when you browse our website (including links that you clicked on in an email).

We may use your personal data to optimize targeted marketing campaigns through our advertising partners, relying on our **legitimate interest as a business** to carry out these activities.

These disclosures may be considered data sale or sharing under US privacy laws. To opt out of this sharing, please see the "What are my privacy rights?" section of this notice.

Retention time: We will process your data no longer than necessary to provide you with marketing and promotions. We will cease processing your data for marketing purposes once you have closed your customer account or membership and/or actively rejecting further marketing communication from us.
